Aloha, your Board of Directors wishes to share the following information with you.

FENCING PROJECT UPDATE: The Fencing Committee of your BOD is proceeding with the research, evaluation, and selection of materials and companies to be sure that the final selection will add value to your home, have lasting life, be mostly maintenance free, and be fencing you can be proud to display. This project is moving as fast as possible due to its complex nature. In the next 90 days, or less, we should be having informational meetings which will give you a clear picture of the details and offer you the opportunity to give us feedback on our progress.

It may seem as though this project is stalling or taking too long, but we assure you the dollars being spent on the new fencing dictate a diligent and very careful approach. We thank you for your patience and understanding. The committee deserves your thanks for the many selfless hours given to this project. Watch for more news.
